SPECIAL MORTAR MH HidroCal**MORTAR FOR PLASTER/WHITEWASH MORTAR, UNE-EN 998-1:2010**

Plaster cement mixed mortar with high impermeability towards water and permeable towards water steams. Usable as protection mortar in high humidity situations with soluble salts presence. Usable as base plastering for C and CH Hidrocal's mortar, as final lining in different colors: white, grey or colored in mass. Also, as mortar for filling stone and brick blisters, among other materials. Its usage is specially recommended as a finishing touch mortar in environments or zones with high humidity levels and/or salts presence or with extreme climate variations.
